

GLORY®

Banknote Value Counter GFR-200 Series

- ***Mixed Denomination Counting***
- ***Non-Stop Counting with Reject Pocket***
- ***Dual Operability between Two Persons***
- ***Solution for Bank Branches, CIT Companies, Casinos, Retail Stores etc.***

GLORY's New Flagship Banknote Value Counter

Why GFR-200 ?

Unlike the conventional value counter, or the size detector of banknotes, GFR-200's function to analyze characteristics of each banknote has various advantages.

- Reduce mis-discrimination often caused by size detection.
- Recognition of characteristics of banknotes enhances accuracy in authenticating counterfeit or forged banknotes.

Other Features

- Non-Stop Continuous Operation through "Enlarged Reject Pocket"
- Operable by two persons interchangeably, with each counted data stored independently, and transferrable to each independent PC subject to availability of interface developed by customers.
- Authenticating function strengthened by new IR/UV/MG sensors (GFR-220)
- Faces and Orients banknotes
- Dust collection via Special Tray and Halls
- Improved Feeding Mechanism

GFR-200's "Non-Stop Operation" is now improved by larger capacity of Reject Pocket.

MODE	FUNCTION
MIX	Totals the Amount in Mixed Denomination
DD	Sort-out Different Denominations
COUNT	Counts by Pieces

Model Variation

Type of CF Sensor	IR	MG	UV
GFR-200	○	×	×
