Automatic Banknote Binding Machine 2025

Full automatic cross banding machine is a high-tech product adopting advanced computed control technology. The new steel design ensures great performance. This machine optimises fully automatic paper binding and has such characteristics as easy operation, artistic binding, high efficiency and low cost, so it is an ideal machine for binding banknote in financial departments and large retail applications. The binding process takes only 2.5 seconds per bundle. This enhances productivity and efficient note processing.

Features & Functions

- Full automatic and quick banding
- Microcomputer control and easy operation
- Hot press banding makes the seal accurate and firm
- The position of binding paper is adjustable
- Sticking time adjusting function
- Tape Extrude Length is adjustable
- Can Band Banknotes in both Vertical & Horizontal formats

Specification:

- Binding Method: Heating & Pressing Sticking
- Warming-up Time: 20 Sec
- Tape Feeding Method: Feeding Tape Automatically
- Tape Extrude Length: Adjustable
- Binding Speed: 2.5 Sec per bundle
- Tape Width: 20mm or 25mm; (Length: 130m)
- Power Supply: 220V/50hz or 110v/60hz
- Power Consumption: 40 W
- Size: 330 X 215 X 240 mm
- Net Weight: 17.5 kg
